In addition to the home learning set by each subject, students will also need to complete their own revision at home in order to achieve the highest possible grades. Students are currently working on their revision techniques with their Tutors and will be able to employ these methods to help them revise independently at home.

Many thanks in advance for your support with this; we understand that for some students, home learning can be a challenge, however, this will have a positive impact on your child's learning as well as to the GCSE grades they achieve in the summer.

Kind Regards,

Mr O. Lee

Assistant Headteacher
